8						
TOTALS:						

Improvement Description: Short, high-level explanation of work to be performed. Example: Lighting, Cooling System, Heating System, Controls, Solar Electric, Elevator Upgrades, Roofing, Fans, etc.

Useful Life: Years of expected useful life of the improvement as documented by the manufacturer.

Contractor: GC-PACE registered contractor under contract with property owner to do the work.

Improvement Cost: Amount of money to be borrowed through GC-PACE to finance the improvements.

Baseline Energy Cost: Annual energy cost of pre-improved project. Example: If the improvement is to replace existing fluorescent lights with new LED lights, show the annual energy cost (in dollars \$) of the existing fluorescents.

Projected Energy Savings: The annual energy cost the improvement will save the property owner. If energy generation systems such as a Solar PV array are installed, list the annual energy generation dollar amount.
